

## "3 in One"

### **"3 IN ONE" (U. S. and Canadian Patents Pending)**

**As Wallbacking:** Used for Handrails, grab bars, tub and shower seating, wall mounted equipment, furniture and furnishing. Meets Americans With Disabilities Act Accessibility Guidelines (ADAAG) Section 4.36, and all national model building codes (BOCA, Standard Code, UBC, and IBC 2000).

**Is used in place of flat sheet material, Notch-Tite® and Flush-Mount™**

**As Bridging:** As bridging replaces black iron channel and clips. Single piece or continuous installation. No wiring or clips. Don't have to trim and fit through punches.

**As Blocking:** Replaces wood fire blocking that have to hand made to fit in between studs. Can be used for draft stops or fire blocking when required.

The fastest, easiest, and most convenient product to meet your backing, bridging, and blocking. Light, easy to install, easy to handle and fast installation.

**Six screws and you're done!**

**Quality:** Prime steel, quality assurance program. 20 gauge construction.

**Tested:** Underwriters Laboratories, Inc. Tested to 250 pounds pull and point load.

**Support:** CAD disk, architectural details and calculations. Field support to architects, specifiers, framing contractors, and building officials from Metal-Lite, Inc.

**ONE telephone call for everything - no intermediaries or marketing companies!**
